Professional Summary

Aspiring software engineer with a strong foundation in Java Data Structures and MERN stack .

Education

Institute of Aeronautical Engineering , B.Tech in Information Technology	Nov 2022 – sept 2026
• GPA: 8.7/10	
Narayana junior college , Intermediate	2022
• Percentage: 98	
Poornima Vidhya Niketan , SSC School	2020
• GPA: 10/10	

Skills

Languages: Java, JavaScript, Python

Frameworks/Libraries: React, Bootstrap, Express.js, Tailwind CSS

Databases: MySQL, MongoDB

Soft skills: Problem solving, Adaptability, Communication

Internships

Rinex Technologies

Web Developer | 06 Sep, 2024 - 30 October, 2024

- Developed responsive and interactive web applications using HTML, CSS, JavaScript, and the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and integrated RESTful API to handle CRUD operations efficiently.

Projects

PetLink

[GitHub Link](#)

- A platform for users to post, sell, and adopt pets, helping stray animals find loving homes.
- Implemented JWT-based authentication with bcrypt password hashing for secure user sessions
- Developed RESTful APIs with Express.js and MongoDB for efficient CRUD operations, and integrated Cloudinary for optimized pet image uploads and storage.
- Tech Stack: React.JS, Express.js, MongoDB

CodeIt-ChatBot

[GitHub Link](#)

- Allows users to request code for common web components like buttons, forms, and layouts.
- Utilized nltk and spaCy for element extraction and enabled dynamic customization of colors, input types, and layouts based on user instructions.
- Tech Stack: React.JS, Python(NLP)

Certifications

Responsive Web Design from FreeCodeCamp

Google AIML virtual internship from AICTE

MERN Stack Developer Certification from Infosys Springboard

Coding Platforms

- LeetCode [↗](#) -solved 250+ problems
- CodeChef [↗](#) -solved 100+ problems
